

**Elective Description:****Text Response**

This 2 or 4 week elective in Digestive Disease Liver Focus is best taken during your second or third year of residency. You will rotate on a busy liver inpatient consult service, located at Y-NHH, where 10-15 new patients are evaluated and treated per week. You will work closely with the liver fellows as well as the inpatient liver attending of the month. You will evaluate patients with primary liver disease, see the complications of end stage liver disease and be involved in the care of patients' pre and post liver transplantation. You will also evaluate patients in whom the liver disease is secondary to another process. Time permitting, you may chose to participate in outpatient liver clinics, but this rotation is largely an inpatient one

**Primary Contact:**

First name	Last name	Email
Karen	Lawhorn	karen.lawhorn@yale.edu

**Faculty Contact:**
